

«LEGGED ROBOTS MARATHON» CONTEST RULES APPENDIX 1 «MANDATORY QUALIFICATION EXERCISES»

Version 1.0 dated July 14, 2016.

1. General provisions

- 1.1. This appendix to the Legged Robots Marathon contest Rules sets out the requirements for the video file which must be presented by all the teams participating in the Legged Robots Marathon contest (hereinafter – the video).
- 1.2. The video is provided by the teams to demonstrate the capability of the robots to participate in the contest.
- 1.3. The video is provided during the registration. The team which failed to provide the video cannot participate in the contest.
- 1.4. The application of the team which provided the video which does not meet the criteria described in this document during the registration may be rejected by the organizers of the competitions.

2. Requirements for content of the video

- 2.1. The video must demonstrate passing of the track meeting the criteria of the Rules (see section 1 of the Rules¹) performed by the robot meeting the criteria of the Rules (see section 2 of the Rules).
- 2.2. Robot must pass the straight segment of the track and at least one turn during 30 seconds.
- 2.3. Mechanism of the robot movement must be depicted on the video.
- 2.4. The same track of other sizes may be used for performing the task.
- 2.5. Any kind of the video editing is not acceptable. The video must contain the frame with an A4 (or similar size) paper sheet which clearly shows the name of the team and the date of the shooting.
- 2.6. Team members must be depicted on the video.
- 2.7. The video duration must not exceed two minutes.

3. Change Log

- 3.1. Version 1.0 of this document was created at July 14, 2016.

¹ Hereinafter the Rules means “Legged Robots Marathon” contest Rules, version 1.1 dated February 07, 2016.
